OHIO EMERGENCY ASSISTANCE TOOLBOX

The **Assistance Toolbox**, has been developed to provide information for County EMA Directors, local governments and Ohio EMA personnel to effectively accomplish response and recovery activities. The Toolbox is a comprehensive compilation of information, guidance, fact sheets, etc. developed to demystify disaster response and recovery activities following the occurrence of a locally declared disaster.

The Assistance Toolbox has been designed to identify the sequence of events following a disaster and critical actions that will occur; address the damage assessment process, including forms to use to report damages; guidance for requesting supplemental assistance for private (Individual Assistance) and public damages (Public Assessment) from the state and federal government; and a brief description of key activities associated with FEMA's IA, PA and Hazard Mitigation Grant Program (HMGP) following a presidential disaster declaration and primary functions in FEMA's Joint Field Office (JFO).

OHIO EMERGENCY MANAGEMENT AGENCY

This guidance has been intentionally designed to be copied, distributed and shared with any audience and the reproduction and use of this information does not require pre-approval by Ohio EMA. However, the Toolbox has not been designed to replace or substitute training provided by Ohio EMA Recovery, Damage Assessment and Debris Management courses.
