

### Scope Statement:

This subject guide is geared towards state employees who fulfill an information technology role at their agency or department or anyone interested in learning more about the resources available from the State Library of Ohio in the field of Information Technology. Additionally, state employees can contact the State Library for more information about available services, reference help and publications at 614-644-7051 or [refhelp@library.ohio.gov](mailto:refhelp@library.ohio.gov).

### Electronic Collections:

- **Business Source Complete (EBSCO):** Provides full text journals in all disciplines of business, including marketing, management, MIS, POM, accounting, finance and economics. Additional full text, non-journal content includes financial data, books, monographs, major reference works, book digests, conference proceedings, case studies, investment research reports, industry reports, market research reports, country reports, company profiles, SWOT analyses and more.
- **Computers and Applied Sciences Collection (EBSCO):** Covers the research and development spectrum of the computing and applied sciences disciplines. CASC provides indexing and abstracts for more than 1,900 academic journals, professional publications, and other reference sources from a diverse collection. Full text is also available for more than 840 periodicals.
- **Computer Source (EBSCO):** *Computer Source* provides researchers with the latest information and current trends in high technology. This database offers full text for nearly 300 publications and indexing and abstracts for nearly 450 publications.
- **Electronic Journal Center (EJC) :** Full text of 7000+ research journals.
- **Safari eBooks:** Electronic books in computer science, information technology, business, and related fields.
