In 2010, the State Library of Ohio created six promotional READ posters. This year we expanded our primary focus of elected officials to include Choose to Read Ohio authors. A limited number are printed and distributed to libraries in Ohio. The posters are also displayed in the lobby of the State Library and available on our website to download and print.

I create the posters with photographs submitted by the legislators, authors, and others using the ALA READ templates.

In the works for 2011 is a READ poster to promote the Ohio Library for the Blind and Physically Disabled and the State Library of Ohio Talking Book program. The poster will feature one or more students from the Ohio School for the Blind marching band with a digital talking book player.
