Recycling of Computers, Phones, Faxes, & Printers at Swanton Library

By Linda S. Slaninka, Director
Swanton Public Library

Saturday, April 23 will be Recycling Day at Swanton Library. In an effort to make a difference, Swanton Library is cooperating with a local recycling center to offer an event that will provide a special one-time service to the community. At this first Recycling Day, residents can bring computers, fax machines, printers, cell phones, keyboards, and monitors to be recycled. Televisions or microwaves will not be accepted. Since there is no recycling center in Swanton, Triangular Processing of Wauseon, Ohio has agreed to be available in the library parking lot all morning with a truck and workers for the project. Items will be taken to the recycling center in Wauseon, Ohio. This event was planned to coincide with Earth Day.
